Translator's Notes

Hi! I wanted to say some things, so I made this note. ~~It's not much, so stay with me for a while!~~ It got longer than expected, but still go along with me for a little bit...

Names & Honorifics

So Keiji, for reasons (I don't wanna blabber much, might get spoiler-y) calls the teens with these friendly honorifics. I was debating sooo much by myself before I started translating this, but in the end I decided to stick with how the game translator did things.

Also, other characters do call some others with honorifics too, just in case.

Self-indulgent ver for me, someone who (except this time) always keeps honorifics as they are.

I feel like I talked about this a thousand times already but I didn't mention this in T/Ns here yet right? Right. Was prolly just my

Honestly I still see it as a shame though, because there are important moments that gave more impact when certain characters who don't call Sara by just her name suddenly do in the original JP ver. (in the game)

I'm still very much swayed on whether or not I should include the honorifics, but if nobody really minds then I'll try to think that this is fine.

Note

Now about the note... It looks like this originally, and of course you can see that this style of plastering characters together just doesn't translate to English. So I just chose some wacky font... I hope that doesn't look that lazy. Because I am... You know, I just thought it'll be a headache for you (to read) and me (to edit) both if I used like 10 different fonts there. Ha haha....

Hi! Your friendly translator here as always.
Just wanted to say that if there's anyone
reading this who hasn't played the game yet,
then I recommend that you do. I mean it.

Do it now. I mean the game's still incomplete but yeah :D

Special thanks to **Sora** for this chap! <3

Thanks for reading!
